## Experiencing Sámi culture

NordGuide offers a dazzling adventure – an evening immersed in Sámi culture.

You are welcomed to a lávvu camp, Sámi tepees raised in a gigantic circle where you the guest sit down at a ready-laid table with candles and surrounded by flames.

The evening features the arts with some of the best Sámi musicians and artists in Swedish Lapland.

From the stage, our host takes you through the Sámi world with stories and narratives from the past and present. There is entertainment during dinner. You will learn about the reindeer herder's life in the eight seasons of their year, old and new traditions, ancient methods and the art of living with and from nature.

Dinner is inspired by Sámi cooking, with delicacies direct from nature.

We are offering an unforgettable experience in the Land of the Midnight Sun, where you meet Sámi people in traditional dress, with reindeer led around inside the camp and spellbinding stories, traditional music and *juoiggos* singing in the white summer evening.

### About Swedish Lapland

Norrbottnen is the northernmost county in Sweden, with a population of 250,000 people, 160,000 reindeer and 65,000 snowmobiles spread over a quarter of Sweden's total area. We represent 2.8 % of the Swedish population which totals nine million. Norrbotten has 14 local authorities or municipalities. In area, Kiruna is the biggest and Haparanda the smallest. Luleå Municipality has the largest population – 72,000 – while Arjeplog has the smallest with just 3,000. Norrbotten contains the highest mountain in Sweden, Kebnekaise (2,111 m), as well as the deepest lake, Hornavan (226 m). Three of Sweden's four state-protected rivers run through Norrbotten: the Torne, Kalix and Pite rivers.
