

Husky safari–in Luleå archipelago

Pack Ice expedition with dog sleigh teams

Encounter Luleå Archipelago as never before. The pack ice in its dramatic formations leaves no one unmoved. The experienced guides help you safely through an island world in the sparkling winter. Guests take turns to drive their own dogsleds on this expedition.

We stop for a wilderness lunch in a lávvu tepee and hear some of the enthralling tales from Sámi culture. The dogsled expedition then takes us further out over the sea covered by the fascinating pack ice.

About Swedish Lapland

Norrbottnen is the northernmost county in Sweden, with a population of 250,000 people, 160,000 reindeer and 65,000 snowmobiles spread over a quarter of Sweden's total area. We represent 2.8 % of the Swedish population which totals nine million. Norrbotten has 14 local authorities or municipalities. In area, Kiruna is the biggest and Haparanda the smallest. Luleå Municipality has the largest population – 72,000 – while Arjeplog has the smallest with just 3,000. Norrbotten contains the highest mountain in Sweden, Kebnekaise (2,111 m), as well as the deepest lake, Hornavan (226 m). Three of Sweden's four state-protected rivers run through Norrbotten: the Torne, Kalix and Pite rivers.
